

Associate Software Developer

Description

We are a fast-growing Enterprise Software company headquartered in Norwalk, CT, and having offices in Scottsdale, AZ, and Bangalore, India. We deliver cutting-edge AI solutions to some of the top universities and enterprises in India and the USA. We built outstanding products to simplify site search and enable active conversations. As a member of our team, you shall collaborate closely with other developers and stakeholders to create innovative solutions for our customers. Our technology stack includes Cloud platforms, NodeJs, Bootstrap, JavaScript, PHP, etc. We follow Agile methodologies to quickly iterate and deliver new features.

We are looking for passionate developers to work across the entire system architecture, from backend to front end, to design, develop, and support high-quality and scalable products. Create everything from mockups and UI components to algorithms and data structures as you deliver a complete minimally viable product.

Responsibilities

Education: Bachelor's in Engineering (Computer Science or Information Science)

Development exposure (One or more): Node.js | HTML5 | JavaScript | jQuery | Angular.js | Web Services (REST, SOAP) | Front-end frameworks (Bootstrap, jQuery UI) | Open source | Cloud Platforms

Qualifications

- Go-getter, keen to learn, and ability to adapt to changing technology environments.
- Excellent communication and presentation skills. Passionate about the IT industry, must have knowledge of new industry and technology trends.
- Passion for best design and coding practices and a desire to develop new bold ideas.
- Software development exposure in internships or academic projects using full-stack.
- Exposure to serverless and cloud platforms.
- Knowledge of web technologies including HTML, CSS, Javascript, AJAX etc.
- Exposure to common third-party APIs (Google, Facebook, etc).

Job Benefits

The fun part – We organize team lunches, movie passes, various indoor/outdoor games, and bi-annual team outings. The very most exciting Hackathon has been conducted bi-annually serving as a platform for creative minds to showcase their talent & come up with innovative solutions for the problems in the world through technology.
